COMPANION

LET'S HAVE A SEAT

"The new cafeteria looks great. I didn't even recognize the space. How did you do it?"

The building manager just smiled, "It's my job to make sure we order the right product. Years

of experience has enabled me to do just that." Years of experience and one phone call to

Versteel.

CHAIR

COMPANION

DURABLE

“Set it up and break it down. Stack it and move it down the hall. Day in and day out, these chairs have got to perform.” There are chairs that are designed to look good, then there are chairs that look good and are designed to work.

“So where are the brackets to link these chairs?” They couldn’t find a package that was marked so they started investigating the chairs. After turning one over; “Hey, check this out. It’s integrated into the frame and folds into the cavity under the seat. This is the coolest, cleanest link I’ve ever seen.”

COMPANION
FUNCTIONAL

"I have to specify a stacking chair with tablet arms?! And it has to be available in both left-hand and right-hand configurations? Your pulling my leg, right?" There was a moment of silence before he spoke. "I'm not pulling your leg, but I did forget to tell you that we also need to coordinate them with stools." Looks like someone could use a Companion.

VERSATILE

THE COMMUNICATION STRATEGY

- A. REVIEW THE COMPANY'S MISSION
- B. INTERVIEW PEOPLE
- C. REVIEW COMPANY COMMUNICATIONS
- D. REVIEW COMPETITOR'S COMMUNICATIONS
- E. ANALYZE THE DATA

"OK, this is the last seminar we have to do this week. One more blah classroom and it's back to the office." They strolled down the corridor to the designated room number and went inside. They looked around in disbelief. "Hey, this may not be so bad. If all the facilities we visited were this well furnished, I would reconsider our travel schedule."

STACKED STOOLS
WITH ARMS.

"I want a heavy-duty chair that's available in more than one style. I want a choice of glides for specific floors and an option of casters. I want the ability to use wood or fabric, and I've got to be able to stack it. Chrome has to be a finish option, as well as custom powdercoats." You want a Versteel Companion Chair.

ABOVE RIGHT, COMPANION CHAIRS WITH RADIUS BACKS, WITH AND WITHOUT ARMS. BELOW RIGHT, COMPANION CHAIR WITH CASTERS AND CHROME FINISH. SHOWN WITH A ROVER DADDY. DETAILS, SINGLE AND DOUBLE WHEEL CASTERS, NYLON GLIDE FOR SPECIAL HARD SURFACE APPLICATIONS AND STANDARD METAL GLIDE.
